

Main features

4 functions for superior performance

- 1 - Pulse Function adjustable by operator
For improved washing of any type of object
- 2 - Sweep Function automatic
For improved uniformity of washing
- 3 - AFR Function automatic
For guaranteed specific washing for any type of object
It sets the optimal washing frequency according to object features, to temperature and to liquid.
- 4 - Auto Degas Function automatic
For setting precisely the power for liquid degasification

AND ALSO:

- - Water wastepipe valve

Ultrasound washing machines Pulse Professional Series

Pulse 570

Pulse 950

Pulse 1600

PROFESSIONAL SERIES

Superior power

Three high performance models for intensive use.

Ideal for small and medium sized objects.

FOR GOLDSMITH'S FIRMS, MECHANICAL GARAGE, LABORATORIES

PULSE SYSTEM, BEYOND ULTRASONIC WASHING

The "Pulse System" function is a new frontier in ultrasonic washing. It is the most modern method guaranteeing high washing performances at all times, even with objects that are very dirty or have particularly complex shapes.

Pulse system is a sophisticated software that optimises the quality of washing because it allows to adjust ultrasonic energy according to the type of object to be cleaned and the dirt to be removed

OPTIONAL ACCESSORIES:

- Heating adjustable with thermostat
- - Timer for setting washing time
- - Basket lid
- - Basket and frame entirely made of stainless steel.
- - High performance piezoelectric transducers.
- - New ultrasonic generators with microprocessor technology and dedicated software to guarantee high efficiency and longer lifespan.
- - Silent wash
- - Energy saving system for eco-compatible consumption
- - Intuitive analogic instruments easy to use

HOOKS made of scratch-resistant laminated steel. They are applied on basket edge to support objects and keep them apart.
BASKETS in stainless steel. Ideal for simultaneous washing of small objects

BEAKERS in antiacid polypropylene. Necessary for bain-marie washing with detergents that are not compatible with the steel basket.
SUPPORTS FOR BEAKERS AND VIALS stainless steel plates with one or more holes, to keep beakers vertical and apart from one another.

		width	depth	height
Pulse 570				
tank capacity	lt	5,75		
tank dimension	mm	300	150	150
external dimension	mm	375	190	305
power supply voltage	V	220	50/60Hz	
heating power	W	400		
ultrasounds frequency	Khz	38		
ultrasounds power	W	300		
weight	kg	6		

		width	depth	height
Pulse 950				
tank capacity	lt	9,5		
tank dimension	mm	300	240	150
external dimension	mm	375	280	305
power supply voltage	V	220	50/60Hz	
heating power	W	600		
ultrasounds frequency	Khz	38		
ultrasounds power	W	550		
weight	Kg	8		

		width	depth	height
Pulse 1600				
tank capacity	lt	16		
tank dimension	mm	375	175	240
external dimension	lt	525	295	420
power supply voltage	V	220	50/60Hz	
heating power	W	800		
ultrasounds frequency	Khz	38		
ultrasounds power	W	800		
weight	Kg	13
