machinery and equipment for goldsmith

TECHNICAL SHEET MODEL 90 LT HD SILENT

The new "HD" branded ultrasonic cleaners mark the new direction Logimec is taking in its production of ultrasonic washers. All the models satisfy the highest quality standards with compact and reliable products, essential for fast, deep cleaning of any article having an irregular surface or with a particularly complex shape.

The new HD line represents the natural next step after its predecessor models, featuring a series of important changes such as the adoption of a powerful microprocessor combined with a sophisticated exclusive Logimec software, which allows our equipment to automatically adapt the best washing frequency to some variable parameters, like the temperature of the washing liquid, its level and the volume of the parts to be washed. In the 16 lt to 200 lt models only, dedicated to the industrial field, in addition to the automatic adaptation of the working frequency (standard on all models), we have modified the ultrasonic generator software in order to produce an intermediate "sweep" step of 150 Hz capable of automatically covering all the needs of the different materials to be washed. This automation allows you to increase washing performance by "breaking" the standing waves that are created inside the tank and it is managed independently by the electronic board. **SILENT SYSTEM:** the ultrasonic washers marked by the SILENT SYSTEM logo also bring reduced noise emissions to the superior performance of the HD series. A unique soundproof structure and a special support system of hooks or baskets make it possible for the ultrasonic equipment to work with a closed lid, thus dramatically reducing the noise and lowering energy used for heating the water. The Ultrasound HD Silent System is available from model 25Lt. to model 200Lt.

Main features

- ✓ Swinging hinged lid
- ✓ Thermostat to regulate the temperature of the washing liquid from 20°C to 70°C
- ✓ Washing cycle timer from 1 to 15 minutes
- ✓ Water drain valve

Optional accessories

- ✓ Hooks holder
- ✓ Stainless Steel Basket

90 LT HD SILENT	MEASURES	VALUE	LENGTH	WIDTH	HEIGHT
TANK CAPACITY	LITERS	92			
TANK DIMENSIONS	MM		540	400	430
EXTERNAL DIMENSIONS	MM		690	550	900
SUPPLY VOLTAGE	V	400V 3P+N+T	HZ	50/60	
HEATING POWER	W	4500			
ULTRASONIC FREQUENCY	KHZ	26			
ULTRASONIC POWER	W	1800			
WEIGHT	KG	70
